

# 301 Johnson Controls BACnet Field Controller Configuration & Commissioning

Intensive 3-day training courses are offered so you know what you need to know to install, commission and service Johnson Control Metasys and Facility Explorer BACnet systems. Robert Vardell, a former field technician, controls engineer, Project Manager, Service Leader, small business owner, and Navy Chief, delivers a unique training experience for his students. Students come away with knowledge that is applicable to buildings you service, and relevant to your next project (Legacy N2 products are not included).

- Starting Tuesday, November 14th - 16th, 2023
- 8:00am to 5:00pm at the Lake Forest training center
- Presented by Robert Vardell of VTT
- Lunch will be provided for all days
- Cost: \$1499 per person / No refunds for absentees

**SPACE IS LIMITED TO 8**
