Fujitsu Next Tech

RSD is hosting a Fujitsu Next Tech class. This course will be an overview on the Fujitsu Tech Support menu. We discuss how use Service Manuals, Service Instruction manuals, Design and Technical Manuals and Mobile Technician App for step-by-step diagnosis in the field. Training will demonstrate how to disassemble outdoor components and subassembly modules, read error codes on indoor and outdoor units, and identify electrical DC grounds for proper testing. You will be instructed on how to identify various field service issues.
