

Air Flow/A2L Refrigerant Overview

RSD is hosting an Air Flow Troubleshooting and A2L Refrigerant Overview. The course will provide a better understanding over unit Air Flow diagnosis/troubleshooting and A2L product transition schedule and sell-throughs. This will also discuss topics on how to measure static pressure, gain the ability to use the tools to take the measurements correctly, and perform hands on Air Flow measurements using some of the basic tools in the industry.

SPACE IS LIMITED!
