

Copeland Scroll Troubleshooting

RSD is hosting a scroll compressor troubleshooting training with Copeland. The course will cover troubleshooting and diagnosing failures with Copeland scroll compressors. This will provide a better understanding of the causes and cures of compressor failure, lack of lubrication, and acid contamination. It will also go over the effects and indication of slugging, flood-back, loss of oil, and high discharge temperatures.

SPACE IS LIMITED!

- Wednesday, April 17th, 2024
- 5:00pm to 7:00pm at the Temecula branch
- Presented by Ed Seffens of Copeland
- Dinner will be provided
- Cost: \$15 per person / No refunds for absentees
