ACCIDENTAL RELEASE MEASURES Personal precautions, Immediately evacuate personnel to safe areas. Keep people away from and upwind of spill/leak. protective equipment and emergency procedures Wear personal protective equipment. Unprotected persons must be kept away. Remove all sources of ignition. Avoid skin contact with leaking liquid (danger of frostbite). Ventilate the area. After release, disperses into the air. Vapours are heavier than air and can cause suffocation by reducing oxygen available for breathing. Avoid accumulation of vapours in low areas. Unprotected personnel should not return until air has been tested and determined safe. Ensure that the oxygen content is $\geq$ 19.5%. Environmental precautions Prevent further leakage or spillage if safe to do so. The product evapourates readily. Use only in well-ventilated areas. Pressurized container. Protect from sunlight and do not expose to temperatures exceeding 50 °C. Follow all standard safety precautions for handling and use of compressed gas cylinders. Use authorized cylinders only. Protect cylinders from physical damage. Do not puncture or drop cylinders, expose them to open flame or Page 5 / 17
